5.7 TREASURY GOVERNANCE

HYBRIX
Hybrid DeFi Infinite Growth

Decentralized. Transparent. Community-Driven.

HYBRIX Treasury follows a decentralized governance model where the community participates in key decisions for a stronger ecosystem.

01 Community Participation
Token holders can propose and vote on key treasury decisions.

02 Transparent Proposals
All proposals, discussions and voting are recorded on-chain.

03 Clear Allocation Rules
Treasury allocations follow predefined rules and categories.

04 Multi-Sig Security
Critical treasury actions require multi-signature approval.

05 Regular Reporting
All treasury activities and fund usage are reported regularly.

06 Checks & Balances
Smart contracts and community oversight ensure accountability.

07 Continuous Improvement
Governance evolves with the community and ecosystem needs.

GOVERNANCE PRINCIPLES

TRANSPARENCY	INCLUSIVITY	ACCOUNTABILITY	SUSTAINABILITY
Everything is on-chain	Every holder has a voice	Every action is verifiable	Decisions for long-term growth

Together We Decide. Together We Build. Together We Grow.

5.8 TREASURY DECISION PROCESS

HYBRIX
Hybrid DeFi Infinite Growth

A clear, fair and transparent process for every treasury decision.

HOW A TREASURY DECISION IS MADE

01 PROPOSAL
Any eligible community member can submit a proposal.

02 REVIEW
The proposal is reviewed for feasibility, impact and alignment.

03 DISCUSSION
Community discussion ensures diverse opinions and feedback.

04 VOTING
Token holders vote based on one token, one vote principle.

05 APPROVAL
Proposals that meet the voting threshold are approved.

06 EXECUTION
Approved proposals are executed automatically via smart contracts.

07 REPORTING
All actions are publicly reported on-chain for complete transparency.

Every step is recorded on-chain. Nothing is hidden. **Everything is verifiable.**

WHO CAN PARTICIPATE?

All Token Holders
Every token holder has the right to propose, discuss and vote.

Verified Members
KYC verified members can create proposals and participate.
